CERTIFICATES

- Front-End Frameworks: Bootstrap 4
Réussi le mars 18 2021
- AWS Fundamentals: Going Cloud-Native
Réussi le juil. 22 2020
- Cloud Computing Basics (Cloud 101)
Réussi le juil. 17 2020

CENTERS OF INTEREST

Design, VolleyBall, Travelling, Music

EDUCATION

- **2019-2022**
NATIONAL INSTITUTE OF POST AND TELECOMMUNICATIONS, INPT
Ubiquitous and Distributed Systems Engineering
- **2017-2019**
PREPARATORY CLASSES at MY ABDELLAH-SAFI CENTER
industrial technologies and sciences
- **2016-2017**
Baccalaureate degree with honors
Mechanical sciences and technologies

EXPERIENCE

► INTERNSHIP

- **ESPORTS ACADEMY** | JUL 2021 - Sep 2021
Working with a team to build a Streaming platform for video games.
I did the prototyping and the front-end design of the website.

► FREELANCE

- **INETECH** | Jan 2021 - Present
Inetech : Small entreprise created by 4 students.
Creation of Websites, applications, prototypes and all kinds of digital services
- **GRAPHIC DESIGN** | 2017 - Present -- Portfolio : FAY.MEKK.ML
Creation of visual content to clients from the internet (*Flyers, Cards, Banners, Digital Drawings, Social media posts ...*)

PROJECTS

- **DATA-MINING and MACHINE LEARNING** : Analysing a hotel boking dataset and predict booking cancelations.
- **ROAD SIGNS DETECTION** : Detection of road signs and return their values using Opencv and Python.
- **NETWORK SECURITY** : Securing different equipments of a network infrastructure using Cisco packet tracer.
- **STORAGE WEB APPLICATION** : Building a website where you can uplaod and download files using Reactjs and firebase.

EXTRACURRICULAR

- **HULT PRIZE COMPETITION**
Being a part of the organisa-
tion team at the HULT PRIZE
onCampus competition
- **DIGITAL JOB FAIR - INPT**
Being a part of the
organisation team of a job
fair at INPT-RABAT
